# EDUCATION SECTOR

WE HAVE BEEN WORKING FOR SCHOOLS AND COLLEGES FOR A NUMBER OF YEARS AND WE HAVE GAINED A REALLY STRONG REPUTATION FOR SERVICE, PRODUCT QUALITY AND HIGH INSTALLATION STANDARDS. OUR REPUTATION WITHIN THIS SECTOR IS SOMETHING WE HAVE WORKED VERY HARD TO BUILD AND IT IS OUR INTENTION TO CONTINUE ON THIS PATH.

Education interiors work very hard. There are high demands on schools and colleges which place pressures on working environments. Children and students can be boisterous. This means that classrooms and pupil areas constantly need improving and maintaining in order to help teaching professionals to get the most out of their students. We have learnt the balance of helping schools to have the best quality interiors at budget friendly costs. Often this means carrying out repairs to existing facilities rather than renewal. We are very pleased to offer maintenance, repair and refurbishment services to schools and colleges.

We are a one stop solution for all of your interior and property needs. Whether you require carpentry works, redecoration, health and safety repairs, new suspended ceilings, new floor coverings, plumbing alterations, classroom redevelopment, electrical alterations, educational furniture or office interiors we are the company to contact.

Our pricing system works quickly so you have the information you require when you need it. Our team are competent, experienced and directly managed by our company. It is not necessary for you to organise or deal with several specialist contractors – we take care of it all

Health and Safety is meticulously managed to assure clients of both people and property safety.

Schools and colleges often have a limited amount of time for carrying out maintenance due to the fact that schools work so hard. We offer an 'out of hours service' – you'll be amazed at what we are able to achieve outside of a working day.
